As expected, third-quarter operating profit was DKK 47 million, and operating profit for the first three quarters was DKK 84 million, 75% ahead of the same period last year.

Net financing costs and share of the results of associates amounted to a net loss of DKK 9 million for the first three quarters, on a par with last year.

Income tax expense for the first three quarters amounted to DKK 15 million, equivalent to 20% effective tax, and benefited from adjustment of the tax base of the Group's deferred tax assets. The portion that is expected to be utilised by set-off against future earnings has been capitalised based on a conservative estimate.

Profit after tax for the first three quarters was 60 million compared with DKK 31 million last year.

On the Buxton project there have been no changes in relation to what was reported in the 2004 annual report, apart from the fact that MT Højgaard has decided to refer its claims to arbitration.

Balance sheet

The consolidated balance sheet totalled DKK 3,597 million at 30 September 2005, up 12% on the balance sheet total at the end of 2004, due primarily to the increase in the level of activity and to the activities acquired from J&B Entrepriise.

Equity incl. minority interests was DKK 977 million, equivalent to an equity ratio of 27% compared with 29% at the end of 2004.

Net interest-bearing debt increased by DKK 29 million in 2005, to DKK 173 million, primarily driven by the acquisition of the activities of J&B Entrepriise, and the start-up of self-generated housing projects.

Cash flows and financial resources

Operating cash flow for the first three quarters was an inflow of DKK 132 million compared with an inflow of DKK 17 million in the same period last year due primarily to an improvement in cash generated from operations and a decrease in net funds tied up in working capital.

Investing activities absorbed DKK 106 million net, compared with DKK 62 million in 2004, made up of a DKK 42 million investment in companies, capital expenditure of DKK 116 million net on property, plant and equipment, and a DKK 52 million inflow concerning sale of securities. The capital expenditure on property, plant and equipment related primarily to replacement of and new investment in contractors' plant and equipment, etc.

Financing activities absorbed DKK 43 million compared with DKK 30 million in the same period last year.

There was a net cash outflow of DKK 17 million versus an outflow of DKK 75 million last year.

The Group's financial resources at 30 September 2005 amounted to DKK 660 million, which is satisfactory. Financial resources are calculated as cash

and cash equivalents, including cash and cash equivalents in joint ventures, and securities and undrawn credit facilities.

The financial resources include cash and cash equivalents in joint ventures of DKK 75 million that are available exclusively to the joint ventures.

Civil Works/International achieved total revenue of DKK 1,118 million in the first three quarters, and operating profit of DKK 1 million, below expectations due to a lower level of activity and write-downs on a few projects.

The order book closed the third quarter at DKK 1,740 million. Full-year revenue of DKK 1.6 billion is anticipated.

Residential Construction/Industrial Construction

The business areas Residential Construction and Industrial Construction undertake all types of residential and commercial building projects east of the Great Belt.

Other activities – subsidiaries, etc.

The segment comprises MT Højgaard's subsidiaries and jointly controlled associates with separately profiled competencies within areas such as electrical installations (Lindpro), steel structures (Promecon) and crane and lift hire (BMS).

Expectations for 2005

The Danish building and civil works market showed a positive trend in the first three quarters of 2005, especially within private-sector housing construction and in the refurbishment market. This trend is underpinned by the access to attractive financing options. This trend is set to continue.

The expectation of full-year 2005 revenue of approx. DKK 8.5 billion is reaffirmed following the acquisition of J&B Entreprise's ongoing operations in Jutland and on Funen in the second quarter 2005.

Pre-tax profit is expected to amount to just over DKK 100 million as announced in the interim report for the first half. The operations acquired from J&B Entreprise are not expected to contribute to earnings in 2005 due to integration costs, etc., but are expected to contribute to profit in 2006 and onwards.

The Group's effective tax rate is expected to be below the Danish tax rate.
